Subject: Dear Sirs:

Dear Sirs:

Further litigation is a waste of taxpayers' funds. Every end user had the opportunity to pick Netscape or Microsoft's Browser. I, like most users picked the better browser.

For the unpicked Netscape to seek the protection of a court is absurd;

Judge Jackson should have recused himself, or resign his position, as he didn't, nor does understand the American system of fair play.

Dale Caughey, JR
